College Football Info Viewer -

This web application allows users to search for NCAA college football teams by name and year to view team logos, season records, game-by-game results, and poll rankings. The design adjusts dynamically to each team's branding colors.

Data & APIs Used –

This project uses data provided by the "CollegeFootballData.com API" (https://collegefootballdata.com/). All rights to data and team media (logos, names, etc.) belong to their respective owners.

- Records Endpoint: `https://apinext.collegefootballdata.com/records`

- Games Endpoint: `https://apinext.collegefootballdata.com/games`

- Rankings Endpoint: `https://apinext.collegefootballdata.com/rankings`

- Teams Endpoint: `https://apinext.collegefootballdata.com/teams`

Color extraction is powered by `color.js` (https://github.com/LeonardSSH/color.js) and images are proxied through `images.weserv.nl` (https://images.weserv.nl/) to bypass CORS issues.

Disclaimer -

This project is for educational and demonstration purposes only. It is not affiliated with the NCAA or any school.
